## BIOGRAPHY

Young independant developer, I have a passion for computer science. I acquired strong knowledge in fullstack development and devops. After my graduation, I started teaching microsevices and performance testing.

I love traveling, boxing and reading.

## PROFESSIONAL EXPERIENCES & EDUCATION

### VOC ON STERIOD

Personnal Dictionary | 2020 -  
Microservices architecture , gRPC.  
SvelteKit, NodeJS (NestJS), Golang, MongoDB, ELK.  
Kubernetes deployment on personnal server.

### FASTORY

Fullstack Developer | Jan - Jul 21  
Fostory Project - NodeJS (Hapi), Redis et ELK.  
ReactJS et NuxtJS. Complex component developpement  
(leaderboard, bot webhook).

### GYMGLISH

Fullstack Developer | Sep 19 - Dec 20  
Studio Project - NodeJS (Express), MongoDB.  
ReactJS. Dockerization of the application. Functionnality  
development (export CSV, création de tag...).

### EUDONET | INTERNSHIP

Fullstack Developer | VueJS - C#.NET | Apr - Jul 19

### NETAPSYS

Fullstack Developer | Java - Spring | Jan - Dec 16

### TEACHING | MICROSERVICES

ESGI - Next-U Bordeaux | 5th year | 2021 -  
Microservices 101. Explaining the concepts of distributed  
application architecture and decentralized data manage-  
ment.

### TEACHING | PERFORMANCE TESTING

ESGI | 4th year | 2022 -  
Discovering the means and methodology to do perfor-  
mance testing and mesuring of an API. Realisation of  
scenarios with different load and network conditions.

### LAST DIPLOMA (Engineer)

ESGI Web Engineeering | 2019 - 2021  
Web oriented courses Web oriented courses. Learning  
different programming languages, frontend and backend  
Frameworks and database technologies.

### My Digital School (3rd Year)

Web | 2018 - 2019

### DUT GEII

Electrical Engineering and Industrial Computing |  
2013 - 2015

## LINGUISTICS SKILLS

## TECHNICAL SKILLS

NodeJS | Golang | Python

Svelte | ReactJS

Docker | Kubernetes

SQL | MongoDB | ELK

Linux | Mac | Windows
